### CAREER SUMMARY:

Software Developer with 1 year of experience in full-stack development, specializing in creating scalable and efficient solutions using React.js, Node.js, Spring Boot, Java, and modern backend technologies. Committed to delivering impactful software aligned with industry standards.

### WORK EXPERIENCE:

#### AccioJob -

Java Full-Stack Developer Apprentice | Jan, 2025 - Present

- Participating in an intensive, industry-focused full-stack development program with a focus on Java, Spring Boot, React.js, and backend development.

#### Techplement -

Backend Developer Internship | Jan, 2024 - Feb, 2024

- Developed a social media dashboard by collaborating with a team, creating backend APIs to fetch platform data, integrating data visualizations, and resolving backend issues to ensure accuracy and performance.

#### CodeFeast -

MERN Stack Developer | Mar, 2023 - Sep, 2023

- Integrated APIs for secure and efficient payment processing.
- Contributed to an educational platform enabling students to book mentorship sessions and access courses.
- Collaborated with designers and team members to create user-friendly interfaces.
- Leveraged Node.js, Express.js, and MongoDB for backend development.

### RELEVANT PROJECTS:

AI Health Diagnosis Website | 2024

- Developed a full-stack, machine learning-powered website for disease prediction (heart, kidney, brain, pneumonia, Parkinson's, diabetes) using trained ML models, efficient backend systems, and modern web technologies.

Zoom Video Meeting Clone | 2023

- Built a fully functional video meeting platform supporting audio/video control, real-time chat, and user connectivity via unique links. Leveraged Node.js, Peerjs, Socket.io, Express, EJS, and Cors for seamless functionality and performance.

### EDUCATION:

2021 - 2025 | CSJM University, Kanpur

Bachelor of Technology - Computer Science Engineering

### SKILLS:

- Proficient in Java, JS, Spring Boot, MERN, MySQL, Firebase, Python and RESTful API.
- Skilled in debugging, troubleshooting, and resolving technical issues efficiently.
- Strong teamwork abilities, leveraging Git for version control in collaborative projects.
- Adept at leading discussions, mentoring peers, and driving projects toward successful outcomes.
